## UNHCR Sector Needs and Key Objectives

**SHELTER / NFI**

**179,405,912**

- Provide life-saving and life-sustaining shelter and NFI support.
- Promote increased security of tenure.
- Contribute towards the resilience and cohesion of communities and households by improving housing and community/public infrastructures.
- Increase the protection of affected people at risk from the consequences of the crisis through sustained advocacy, risk mitigation and enhanced protection responses.

**PROTECTION**

**132,604,355**

- Strengthen the capacity of national community-based actors to assess, analyse and respond to protection needs.
- Girls and boys affected by the crisis, with a focus on those most at risk in prioritised locations, have access to effective and quality child protection responses in line with the Child Protection Minimum Standards in Humanitarian Action.
- Survivors of GBV have access to quality comprehensive GBV services and measures are in place to prevent and reduce risks of GBV.
- Reduce the impact of explosive remnants through risk education activities.

**HEALTH**

**15,409,090**

- To provide life-saving and life-sustaining humanitarian health assistance to affected people.
- To strengthen health sector coordination and health information systems to improve the life-saving health response for people in need, with an emphasis on enhancing protection and increasing access to health services.
- To support community resilience, institutional and response capacity by empowering communities and national actors.

**CAMP COORDINATION AND CAMP MANAGEMENT**

**1,998,106**

- Provide effective coordination support at hub and WoS levels, facilitating a timely and evidence-based response informed by enhanced needs assessments and information management with a focus on strengthening the response capacity of national humanitarian actors.
- Maintain coordination and operational capacity for UNRWA-led programmes targeting Palestine refugees.
- Enhance security risk management measures to ensure the safety and security of UN personnel and continuity of humanitarian programme delivery.
