The aim of UNHCR Pakistan’s Community-based Protection (CBP) strategy is to empower Persons of Concern (POCs) to have an effective role as protection actors and meaningfully participate in the design, planning and implementation of activities that are most needed within their communities. CBP seeks to restore positive roles within a community and rebuild community-based support mechanisms and protection structures. UNHCR, in collaboration with its partners; International Catholic Migration Committee (ICMC), Society for Human Rights and Prisoners Aid (SHARP), DANESH, Water, Environment and Sanitation Society (WESS) and Commissioner for Afghan Refugees (CAR), continue its efforts to implement CBP interventions throughout the country.

The four key priorities of the strategy covers:
1. Enhance outreach and communication
2. Ensure access to needed services
3. Promote empowerment leading to self-reliance
4. Strengthen partnership and coordination
