## What are Complementary Pathways?

Complementary pathways are safe and regulated avenues for refugees that complement resettlement by providing lawful stay in a third country where their international protection needs are met. They are additional to resettlement and do not substitute the protection afforded to refugees under the international protection regime.<sup>1</sup>

The three-year (2019-2021) Strategy on Resettlement and Complementary Pathways<sup>2</sup> is a vehicle to implement the objective of the Global Compact on Refugees to increase responsibility sharing through expanded access to third-country solutions for refugees. The Strategy, which was developed and committed to by States, UNHCR and other stakeholders contains a vision of 2 million refugees admitted to third-countries through Complementary Pathways, in addition to 1 million refugees admitted through resettlement by 2028.

## KEY UNHCR OBJECTIVES

### OBJECTIVE 1

Increase refugee access to complementary pathways with protection safeguards

- Promote and increase autonomous refugee access to complementary pathways opportunities through information sharing, to enable refugees to make informed decisions;
- Ensure that complementary pathways take into consideration the specific situation of refugees and legal, administrative and practical barriers that limit refugee access are identified and addressed;
- Ensure that complementary pathways include protection safeguards, are solutions-oriented and work towards the objective of refugee self-reliance.

### OBJECTIVE 2

Strengthen coordination and partnerships on complementary pathways

- Coordinate work on complementary pathways across sectors by connecting existing local livelihoods and education initiatives with third country opportunities;
- Engage a wide variety of partners, including private sector, academia, development and advocacy actors to identify innovative ways of helping refugees to access complementary pathways from Jordan.

### OBJECTIVE 3

Grow the evidence on complementary pathways

- Map opportunities and develop ways of monitoring refugee access to complementary pathways from Jordan;
- Increase the use of data on refugee skills and experience to match refugees with potential complementary pathways opportunities.
