* Activity Info and CPIMS Data indicate services provided by ALL CP actors in Jordan including UNHCR

KEY UNHCR ACTIVITIES

Enhancing leadership of child protection coordination mechanism

- Provide donor and humanitarian partner briefings and advocacy to raise child protection concerns and needs.
- Represent UNHCR and the CP sector in key governmental and non-governmental child protection fora.
- Mapping of child protection partners, activities, capacity building opportunities and gaps within the sector;
- Dissemination of information on child protection related activities, analysis and procedures.
- Establish and maintain child protection referral pathways to improve the quality of child protection response.

Strengthening national child protection systems to reinforce best interest procedures

- Work towards enhancing the integration of best interests procedures in national CP systems through targeted advocacy and capacity building to ensure alignment with UNCRC and enhanced protection space.
- Strengthen the role of relevant ministries within the CP response and coordination structure (e.g. MOSD, FPD and JPD key actors in the CP SWG, BID panel, etc.);
- Facilitate capacity building and advocacy meetings and conferences on CP response.
- Support governmental institutions with introducing new technologies that ensure a survivor-centered approach and the best interest of the child when providing services.
- coordinate with key governmental and non-governmental organizations, to harmonize national guidelines, SOPs and referral pathways and ensure alignment with the principle of Best Interests of the child;
- Ensure the best interests principles are integrated in all activities and services affecting children, including national legislation, humanitarian assistance and social service sector.

Prevention and response to child protection risks

- Provide comprehensive, multi-faceted child protection case management services, including psychosocial support, cash assistance, legal assistance/representation, and durable solutions.
- Conduct countrywide awareness campaigns through key governmental and non-governmental partners.
- Strengthen community-based CP mechanisms to foster prevention of CP risks.
- Liaise and coordinate with relevant actors to strengthen community-based CP programs (e.g., community-based alternative care program, peer support groups, para-case workers as a standard within Project Partnership Agreements, etc.).

Analysis and research

- Draft comprehensive yearly analysis of CP concerns in collaboration with all CPIMS TF members to ensure information on CP risks are recognized by key stakeholders, including governmental counterparts, partners and donors.
