para los Refugiados

Context

The State of Emergency has been extended until 30 November in Peru. Yet, the number of COVID-19 active cases has been on a steady decline, with some 1,000 positive cases daily, which has moved Peru out of the top ten countries in the COVID-19 global ranking. The virus has mostly affected the elderly population, while the Minister of Foreign Affairs estimated that by March 2021, 30 per cent of the population would be able to access the COVID-19 vaccine.

New impeachment proceedings were charged against President Vizcarra [for alleged corruption during his mandate as Regional Government in Moquegua](#). This allegation has been launched by some Congresspeople, which will be discussed in Congress to approve or reject the start of the vacancy process during the first week in November, with the exact date yet to be confirmed.

The Ministry of Interior has published a Supreme Decree [010-2020](#) that approves special, exceptional and temporary measures to expedite the regularization of the immigration status of foreign citizens in the country, who have overstayed or entered irregularly. The requirements include to present a valid travel document, such as a passport, and having no criminal record.

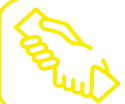

Asylum-seekers, refugees and migrants situation

Since the Special Commission for Refugees (CEPR for its acronym in Spanish) resumed the online asylum registration system on 22 June, **over 42,800 claims have been lodged**, representing **over 50,400 asylum-seekers**, and received a virtual work permit, out of which **32,780** are in Lima.

As the pandemic situation in the country is being stabilized, some restrictions are still in place, which continue to affect refugees and migrants who are in great need for remote support. UNHCR has answered **over 75,400 calls** via helplines with the support of its partners since the start of the Emergency.

Some 28,000 orientations on shelter, protection, education and documentation have been registered in UNHCR's system (proGres,) since the start of the Emergency. Among the main unmet needs identified are food, shelter, access to health and other essential services, as well as lack of legal documentation.

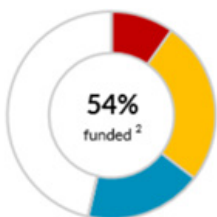

Since the beginning of the Emergency, **over 125 Refugee Housing Units (RHUs) have been donated** and installed in some **70 locations**, including Hospitals, Maternal and Child health centres and shelters in the region of Arequipa, Callao, Cañete, Cuzco, Iquitos, Lima, Loreto, Madre de Dios, Piura, Tacna and Tumbes to help the country cope with the pandemic and in close collaboration with the Ministry of Health, the Navy and the National Government.

UNHCR Peru Funding Update (As of 22 October 2020)

\$48.6 million

UNHCR financial requirements 2020

- Tightly earmarked
- Earmarked
- Softly earmarked (indicative allocation)
- Unearmarked (indicative allocation)
- Funding gap (indicative)

The financial requirements for Peru include requirements for the Coronavirus Emergency and the Venezuela Situation

UNHCR Response

Basic needs such as access to food, water and sanitation, shelter and health are growing more and more urgent. Also, evictions are growing more frequent as many refugees and migrants do not have the means to pay for their rents.

Remote support

Over **1,260 activities** on psychosocial support and empowerment to mitigate Sexual Gender-Based Violence (SGBV) and case referrals have been carried out through UNHCR and partners. Additionally, in Tumbes some **40 local authorities** participated in a workshop to promote the protection of girls as part of the International Girl Day. The sensitization session was led by 10 adolescent promoters empowered through the UNHCR and Plan International project. Also **250 people** participated in a training of LGBTI community protection by PROSA.

The Municipality of Lima and UNHCR produced a series of three Webinars focused on new masculinities, as part of a larger strategy to prevent sexual and gender-based violence, targeting both the refugee and migrant, as well as the host communities. So far **over 3,000 people** have been reached with active engagement through social media

Over **6,600 protection cases** have been followed-up through specialized case management services of UNHCR and partners since the start of the Emergency.

Humanitarian Cash-Based Assistance (CBI)

Since the start of the Emergency, **over 36,250 people, i.e. some 11,760 families**, have received CBI through partners Aldeas Infantiles, Caritas, Encuentros and HIAS supported by UNHCR for some **2.2 million dollars**. This includes around USD 78,500 in multipurpose supermarket vouchers, reaching over **5,320 individuals** (equivalent to 1,730 cases), in all five locations where UNHCR has a presence namely: Arequipa, Cuzco, Lima, Tacna and Tumbes.

As part of the livelihood strategy, **some 400 people** have participated in workshops to strengthen capacities to access employment, learn about their rights and complaint mechanisms to report exploitation and abuse, led by UNHCR with the support of the National Superintendence of Labor Inspection (SUNAFIL) for the sessions in Cuzco.

Solutions to COVID-19

Basic Needs and Shelter

During quarantine, over 1,000 refugees and migrants have been assisted daily, at the maximum capacity of supported shelters since March 2020. During this period, **some 270 refugees and migrants** have been supported with shelter, and **over 173,340 food rations** have been provided in the 16 shelters, hotels and temporary centres in Arequipa, Lima, Tacna and Tumbes.

UNHCR contributed to the refurbishment of a support space in Tumbes. The soup kitchen “Comedor Hermanas de Santa Ana” serves both the refugee and the host communities and provides a safe space to conduct health brigades in coordination with UNHCR partner IFRC.

More than **4,400 kits** have been distributed by UNHCR and partners, including baby kits in Cuzco and Tacna, hygiene kits in Lima, and mosquito nets, masks, clothes and kitchen sets in Arequipa, Lima, Cuzco, Tacna and Tumbes. Also, since the start of the Emergency, over **17,870 thermal blankets** have been distributed nationally.

UNHCR Response

Health

Over 8,200 specialized mental health consultations have been provided through partners ACF, CAPS, Caritas, IFRC, HIAS and PROSA in Callao, Cuzco, Lambayeque, Lima, Madre de Dios and Tumbes. Some **50 cases** of vulnerable elderly persons of concern were referred for rapid needs assessment.

UNHCR and partners have carried out over **520 HIV/AIDS** consultations through partner PROSA in Tumbes.

Some **1,230 primary health** orientations have been carried out in Lima and Tumbes by UHCR and partners.

“Now we have room to speak. But we still have a long way to go”

UNHCR's Juliette Murekeyisoni reflects on progress and setbacks for displaced women and girls since a landmark conference in 1995. “I hope we can continue working towards gender equality in the UN to be an example for others.”

Coordination

UNHCR is co-leading the emergency coordination response for refugees and migrants through the **GTRM** composed by over **75 partners** including donors, together with IOM. The GTRM is coordinating with the recently activated Humanitarian Network and has been holding bi-monthly coordination meetings on Cash Based Interventions (CBI), protection, health, information management and communications, as well as basic needs (shelter, food security and food distribution) with all sector leads to operationalize and channel assistance.
