Main Activities

- Refugees and host community members continue to be reached with essential information about COVID-19 prevention and response.
- UNHCR provides technical support to the authorities in the nine countries to strengthen national asylum systems, and to work towards eradicating statelessness.
- Under its regular programming, UNHCR provides protection services to refugees and asylum-seekers, including legal assistance, psychosocial counselling, basic assistance, access to tertiary education and livelihoods.
- Under COVID-19 emergency planning, UNHCR and partners are providing multipurpose cash-based assistance and food parcels to members of the refugee and host communities who are struggling to make ends meet, and supporting health care and sanitation services in refugee camps and settlements.

Durable Solutions

- UNHCR advocates for the local integration of refugees and asylum-seekers wherever possible, and facilitates voluntary repatriation for refugees who wish to return home in safety and dignity. Resettlement is a vital protection tool for a small proportion of highly-vulnerable refugees.

Working with Partners

- UNHCR works with 21 implementing partners in the seven countries currently sheltering people of concern: Botswana (2), Eswatini (1), Lesotho (1), Madagascar (2), Mauritius (1), Namibia (3), South Africa (11).

Financial Information

UNHCR is grateful for the support provided by donors who have contributed to this operation, including (as of 8 September 2020) the United States of America (USD 2.7 million), European Union, UN Programme on HIV/AIDS, Botswana, South Africa and private donors.

Thanks to the major donors of softly earmarked contributions that can potentially be used for this operation due to their earmarking to a related situation or theme, or to the region or sub-region. Special thanks to the major donors of unearmarked contributions to UNHCR's global program. Contributed without restrictions on its use, unearmarked funding allows UNHCR critical flexibility on how best to reach refugees and other populations of concern who are in the greatest need and at the greatest risk.
