

# Tunisia

June 2021

Refugees and asylum seekers in Tunisia **originate mainly from the Middle East, sub-Saharan and the horn of Africa**. Most reach Tunisia by land or air from neighbouring countries, and **within mixed movements**, by sea or land to/from Libya/Algeria.

Tunisia has yet to adopt **a national asylum system**. UNHCR is the sole entity responsible for conducting registration and Refugee Status Determination (RSD). The unstable political and socio-economic situation provides **limited durable solutions** for most refugees and asylum seekers.

UNHCR collaborates closely with national and local authorities to **improve access of refugees and asylum seekers to basic and social services**, and to ensure their socio-economic inclusion.

## POPULATION OF CONCERN

by country of origin

**Total: 8,350**

As of 31 May 2021

## FUNDING (AS OF 16 JUNE 2021)

**USD 9.0 M**

requested for the Tunisia operation

## COVID – 19 IN TUNISIA

After the ease of early containment measures in June 2020, contaminations spiked up to reach nearly 350,000 cases as of 31 May 2021. Tunisian government is adopting general prevention measures including night curfew, limitation in movements and targeted lockdown. The country's healthcare system is currently being pushed to its limit with roughly 100 new hospitalizations per day, as reported in the media. Vaccination campaign started on 13 March 2021 and 650,413 individuals have received the first dose of vaccination, while 302,995 have already received the second dose as of 31 May 2021. Refugees, asylum seekers and migrants are being included in the vaccination campaign, thanks to coordinated advocacy, and UNHCR is supporting them to register to the vaccination platform. Moreover, UNHCR Tunisia continued its support to healthcare structures, government institutions, local authorities and civil society through distribution hygiene and medical material, as well as installation of Refugee Housing Units (32 so far) for patient screening in hospitals or isolation of cases. Moreover, remote protection services were established with increased capacity via phone. Psychosocial support and communication with communities was scaled up across Tunisia with five 24-hour hotlines and Facebook pages created. Presence of dedicated medical personnel was put in place in UNHCR-run shelters and more than Hygiene kits and personal protective equipment were distributed in 2020 and in 2021 to refugees and asylum seekers.

## Working with Partners

Together with the Tunisian Government, UNHCR ensures international protection and delivery of multi-sectorial assistance to persons of concern. UNHCR works with the Ministry of Justice, Ministry of Education, Ministry of Health, Ministry of Social Affairs, Ministry of Women, Family, Childhood and the Elderly, and the Ministry of Vocational Training and Employment (among others) to enable refugees and asylum seekers to enjoy essential rights and basic services, and to ensure their inclusion in social and economic programmes. In 2020 UNHCR signed a Memorandum of Understanding (MoU) with the Tunisian Ministry of Social Affairs and a Partnership Agreement with the Tunisian Union for Social Solidarity (UTSS), with the aim of enabling persons of concern to UNHCR to access social services. Moreover, UNHCR maintains positive collaboration with state entities at the local level—namely in southern Tunisia—where the highest number of refugees and asylum seekers are hosted.

In the framework of the Global Compact on Refugees, UNHCR is strengthening his collaboration with several municipalities hosting large numbers of refugees and asylum seekers, in order to ensure their inclusion in the local services provision and facilitate their integration in urban areas.

UNHCR collaborates closely with the UN Resident Coordinator and other UN Agencies, including IOM, UNICEF, WHO, WFP and humanitarian actors for a coordinated and effective response.

The following partners implement specific sectors of activities:

- **Arab Institute for Human Rights (AIHR)** – capacity-building and advocacy on international protection and asylum issues, including in the context of mixed populations movements and legal assistance.
- **Tunisian Association for Management and Social Stability (TAMSS)** – livelihoods and self-reliance activities, support or accessing employment, including vocational training, micro-business and wage employment to ensure socio-economic inclusion.
- **Tunisian Refugees Council (CTR)** – profiling of new arrivals; reception and shelter management; multi-sector assistance (food vouchers and non-food items, cash assistance); support to healthcare and education; individual case management and community based protection; protection and prevention against sexual and gender-based violence (SGBV); child protection; psychosocial support; assistance to persons with specific needs; counselling and recreational activities in the context of mixed population flows.

UNHCR is a member of the United Nations Country Team (UNCT) in Tunisia and contributes to the planning of the next five-year Cooperation Framework that will constitute the foundation of the UN's collaboration with the Tunisian Government during the period 2021 - 2025.

## Operational context

UNHCR established its presence in Tunisia in 1963 following the Algerian war, and in 2011 signed an agreement with the Government to address the large number of refugees and asylum seekers coming from Libya. Since the end of 2018, UNHCR Tunisia witnessed a growing number of new arrivals from west and horn of Africa. Starting from 2020, a growing number of Ivorian nationals who entered Tunisia through airwaves and in possession of a three-months tourist visa approached UNHCR to seek international protection. At the same time, Tunisia hosts refugees and asylum seekers fleeing conflicts across the Middle East, primarily from Syria, Iraq, Yemen and Palestine.

In the aftermath of Libya's 2011's revolution, the push for a more inclusive and equitable society emerged in Tunisia, primarily as a way to resolve current political and economic challenges. This need is at the core of the Government's Development Plan 2016 – 2020, and among the priorities for achieving the 2030 Agenda.

UNHCR activities are aligned with these objectives, aiming to establish a national protection system able to guarantee human rights and to achieve social-economic inclusion of refugees and asylum seekers.

# Main Activities

## Protection

- In the absence of a formal national asylum system, UNHCR carries out **registration of refugees and asylum-seekers** and **Refugee Status Determination (RSD)**, to ensure that persons of concern to UNHCR are identified and documented. This helps to prevent arbitrary arrest, detention and *refoulement*. In 2017, UNHCR introduced biometric enrolment to improve the quality of data collected and to avoid fraud.
- UNHCR conducts **extensive capacity-building programs** with members of parliament, state agents, civil society, journalists, lawyers and judges **on the principles of international protection and refugee rights**, in order to create a *de facto* protection space for persons of concern to UNHCR present in the country. Moreover, UNHCR trains border officials **on the principles of international protection and refugee rights in the context of mixed population movement**, in order to ensure that border management takes into consideration the protection needs of refugees and asylum-seekers.
- UNHCR prepared and signed a **manual of referral procedures and coordination** for refugees and asylum seekers who survived human rights abuses in collaboration with Human Rights National authorities.
- UNHCR uses a participatory approach to enhance **community-based protection**, building links between different service providers and increasing engagement with refugee communities. UNHCR's partner, the Tunisian Refugees Council (CTR), works to develop safe spaces and promote communication with affected communities, in order to better identify and refer people with specific needs or at heightened protection risk (i.e. survivors of sexual and gender-based violence and unaccompanied or separated minors).
- UNHCR's partner AIHR provides **legal counselling and legal representation** to support refugees and asylum seekers. Legal assistance units are present in Tunis, Sfax, Sousse, Zarzis/Medenine.
- UNHCR collaborates with several academic institutions to **contribute to the juridical research and debate** on issues related to asylum, forced displacement and statelessness. Moreover, UNHCR's partner AIHR developed a portal ([asile.tn](http://asile.tn)) collecting scientific and editorial resources on international protection in Arabic language.

## Education

- Children who are refugees or asylum-seekers have **access to primary and secondary education**. To increase school attendance, UNHCR and partners provide a one-time education grant for students to help parents purchase books and school supplies.

## Health

- Refugees and asylum-seekers have **access to basic public health facilities**. UNHCR and its partner CTR supports vulnerable asylum-seekers and refugees with the reimbursement of medical expenses and medicines for basic primary healthcare, chronic diseases, and emergency medical interventions. Through an agreement with the Ministry of Social Affairs, refugees and asylum seekers with disabilities and chronic diseases can access national protection systems initially designed to serve nationals only.

## Food Security and Nutrition

- Refugees and asylum seekers hosted in shelters, as well as vulnerable refugees and asylum seekers living in urban and rural areas, receive **cash assistance to purchase food and other essential items**.

## Shelter and Non-Food Items (NFIs)

- Vulnerable refugees and asylum-seekers have **access to temporary accommodation in shelters** while their refugee status determination procedure is processed.

### Community Empowerment and Self-Reliance

- With its partner TAMMS, UNHCR is enhancing refugees' self-reliance and livelihood opportunities by supporting access to tailored vocational training, micro-businesses, and employment with private companies.
- UNHCR works on **socio-economic inclusion of refugees and asylum seekers enhancing coordination among authorities**.

### Emergency preparedness

- With the deteriorating security situation in neighbouring Libya since mid-2019 the Government of Tunisia, UNHCR and IOM; in close collaboration with other UN Agencies, accelerated contingency planning efforts. However, no substantive influx from Libya was recorded during 2020 also due to the closure of the land border as a pandemic containment measure. UNHCR is working to reinforce the capacity of the Government of Tunisia at the border entry points.

## Key priorities for 2021

- Pursue agreements with key ministries that would allow access of persons of concern to public services while supporting the **adoption of the draft national asylum law and** continuing capacity building to foster good practices in the interim.
- Continue **profiling, registration and refugee status determination** to identify persons in need of international protection in the context of mixed population flows and pursuing solutions such as resettlement and complementary pathways.
- **Promote refugees' self-reliance** by supporting **access to livelihoods** and basic services, as well as prioritizing direct assistance to the most vulnerable.

## Key challenges for 2021

- Comprehensive domestic legislation to establish **a national protection framework** for refugees and asylum-seekers is pending adoption, leaving refugees and asylum seekers in a fragile legal and socio-economic situation.
- Tunisia remains affected by the **volatile political and security environment in the region**, namely in neighbouring Libya. Increasing new arrivals are severely compromising the limited absorption capacity within the country.
- **Shelter capacity** to accommodate new arrivals remains a challenge considering the highly vulnerable profile of new arrivals.
- **Mixed movements to and from Tunisia** continue to put pressure on the limited capacity of the operation. The number of persons awaiting registration and refugee status determination continues to grow, in spite of enhanced staffing capacity.

## External / Donors Relations

### Special thanks to earmarked donors for UNHCR operations in Tunisia in 2021

Austria | European Union | Japan | Monaco | Netherlands | RDPP NA – EU | Switzerland

### Thanks to the major donors of softly earmarked and unearmarked funds in 2021

Belgium | Canada | Denmark | France | Germany | Ireland | Japan | Malta | Netherlands |  
Norway | Spain | Sweden | Switzerland | United States of America | Private donors

**With the support of the following organizations and private sectors partners:** UNIQLO
