Methodology: Unearmarked funding is allocated and reallocated multiple times during the year to allow UNHCR to fund prioritised activities. This funding update includes an indicative allocation of funds so as to accurately represent the resources available for the situation. The contributions earmarked for the Ethiopia Emergency shown above are combined with an indicative allocation of the softly earmarked and unearmarked contributions listed below. This allocation respects different levels of earmarking. Adjustments relate to programme support costs and carry-over.

Notes:

1. The financial requirements of the Ethiopia Emergency include requirements in Ethiopia and Sudan.
2. The percentage funded (69%) and total funding amount (\$113,043,369) are indicative based on the methodology described above. This leaves an indicative funding gap of \$51,450,779 representing 31% of the financial requirements.
3. Contributions to the Ethiopia Emergency are shown by the earmarking modality as defined in the Grand Bargain.
4. Due to their earmarking at a related region, sub-region, country or theme, the other softly earmarked contributions listed are those which can potentially be used for the Ethiopia Emergency. Where a donor has contributed \$2 million or more, the total amount of the contribution is shown.
5. Contributed without restrictions on its use, unearmarked funding allows UNHCR critical flexibility in how best to reach refugees and other populations of concern who are in the greatest need and at the greatest risk. Where a donor has contributed \$10 million or more, the total amount of the contribution is shown.
6. Includes an adjustment for generous contributions from Norway, Sweden, and the United Kingdom that were received and acknowledged in 2020, but that can be used in 2021, thereby increasing the funds available to the Ethiopia Emergency Situation in 2021.
